Man stood the test of seven years before the public; and no preparation for the hair has yet been disrovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and ABLEKINGDOM. It restores GREY
MAIR TO ITS ORIGINAL YOUTHFUL COLOR. It makes the scale

2. There is no giving way of a stayed at sides as well as ends.
3. It is adjustable to any sized out additional slats.
4. Any mechanic can make or farmer who can use tools for white and clean; cures dundruff and humors, and falling out of the hair; and will make it grow in any country town.

6. They are lighter than any other Spring Bottom, and can readily be made so as to sostein a light countritive principle by which the hair is nourished and supported. It needs the hair moist, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will asthan three bottles of any other persons that may wish to purchase, and where may preparation. CERTIFICATE.

preparation.
It is recommended and used by the First Medical Authority.
The Wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by elalming they were former part-ners or had some connection with our Mr. Hall, and their prepara-tion was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the our private Revenue Stamp over the top of the bottle. All others

LOTIO, LOTIO. Lotio, Lotio. THE classic poets have sung to us of a spring

whose ethernal waters impart perpetual youth andbeauty to all who will drink of them. It is now conceded by all that the magical effects of the LOTIO

Far surpassing those produced by the waters
that famous spring.
Lawyers, doctors, statesmen, whose heads were
cald, have said it was constitutional, er, rather, he
reditary. Let us say a word to the hereditary ba'd
State of South Carolina doring the war. Vice Presiness without entering into an extended argument. The brain is the machine which runs the human system, and where will-power, (as the phrenologist call it) or firmness, together with a large amount of brain are both largely developed, this character does no let the world move him, he moves the world. If mychant his feet are planted on the five continent of the glole; if his business is to map down the orb of upper worlds, he finds new and undiscovered worlds for investigation; or, as the poet, drags all the horrors of sublimities of the imagination in thyme before your vision. Such men may never

have a day's sickness from the cradle to the tomb.

still there is always a slumbering fire, kept alive by action of the brain, and unless the person uses my To keep the hair healthy, he is certain to become bald. If you wish to see bald heads look at the successful lawyers, doctors, statesman, merchant, bank-He has given every moment of his time and thoughts to his profession, and not once thought-thair. On the other hand, if the man's development dees not prompt him to be first in the world's dra-ma, but rather remain at the tail end of everything. anch men are pover bald, without brain fever c some other prostrating sickness brings the bair out. The two charaters described can be found in almost-every family-the children of one father. Is baid ness then bereditary? Chemists have prepared arti-cles for the hair until there was no sale for it and

then like chameleon change its color and name and PROF. CHRISTY'S beet was to create something which should last taining the cause of gray hair and haldness. The

second, the discovery of a vegetable compound, whose nurrient virtues would allay the fever of the overtasked brain, and thousands can testify that the LOTIO Is just the thing. If the head is covered with dandruff, something is wrong with the roots of the hair.

If the hair is turning gray, it needs decraring Christy's Hair Lotio. Will restore that which has turned gray to its original color. After which if the LOTIO is applied only once a week, the hair will remain healthy and re-tain its natural color until death. If your hair is harsh, dry and falling out, this is the time to pre-

Newness of Science the play of buman emotions and the phases of human experience have Just published, a new edition of Dr Culverwell's celebrated Essay on the carried care inithout medicine) of SPERMATORHE, or Seminal Weakness, Involuntary Seminal Losses. Involuntary Seminal Losses. Involuntary Mental and Physical Incapacity, Impediments to Marriage, etc.: also Consumption, Epilepsy, and Firs, induced by self indulgence or sexual only repeated themselves in the rippling flow of the ages, yet the numerous developments of the modern sciences seem to cast a doubt upon the aphorism of the ancient king. and to prove that there are indeed many new things brought to light in the world. Aside from the natural sciences and industrial arts it would be very difficult to find much in our our own time that was not known to generations whose very memories have almost faded away in the remote past. There are few schemes of political economy, few problems of social life, few questions of ethics or creeds of religious faith that, in some shape or another, have not rexed the minds of men even se far back that they were old when the Hebrew sage reflected upon the vani-tics of life. With the means, how ever, by which wealth is created mere rapidly than before, by which bread is wen, dwellings built, and clothing fabricated, by which the ma-terial necessities of the race are so plentifully supplied, it is far differ-ent, for agencies like these, in the great mujority of instances, have been 'new things under the sun' men always preface their declarawithin the century past.

it is well to ponder upon the part good bank account, &c.'
which these new things are destined to play, not alone in promoting the comfort and merely material progress of communities, but in the demoral progress than was known in inquired a jockey.
